

Farminer Developments Ltd
BUILDERS :: DEVELOPERS

Extensions :: Alterations :: Renovations :: Period Property

Reg office: Farminers Yard, Flexford Road, Normandy, Guildford Surrey GU3 2EF

Dear Sir,

I would like the opportunity to introduce our company to yourself.

Farminer Developments Ltd has been in existence for over 60 years, previously trading as G E Farminer and Son. Ian Farminer, the existing Managing Director, took over the company in 1993. Farminer Developments became a limited company in 1986 and has seen the introduction of a fourth generation working within the business in 2007. Marc Farminer has completed a BSc (Hons) in Project Management, accredited by the CIOB.

At present we are a medium sized building company that can deliver various services throughout the delivery of a project. We have a team of full time tradesmen, qualified site managers and project managers. As contractors, we strive to use sub-contractors that produce the high quality work and professional yet friendly and personal service that we always expect.

The services that we provide include extensions, renovations, listed building work and professional services (project management and CDM co-ordinator). Working on behalf of a client or as an independent developer, Farminer Developments have worked on various new build properties that are guaranteed by the NHBC. The company now has the capabilities to offer a design and build service where clients wish to utilise the expertise of our employees at an early stage.

We pride ourselves on our high standard of work and are happy to provide references for the various services we provide. Please see the enclosed presentation and brochure for further information and illustration of previous projects that we have undertaken.

'Farminer Developments is an environmentally friendly, health and safety compliant organization, giving our customers confidence and peace of mind knowing we are complying in all areas.'

I hope that you find this pack informative. Please do not hesitate to contact me if you would like to discuss any forthcoming projects.

Yours faithfully,

Ian Farminer.
